Objectif Lune

OL® Care
Designed for your peace of mind

PlanetPress Classic Re-entry Information Pack

Key PlanetPress Classic milestones

- PlanetPress Suite has entered end-of-life status and will be discontinued on **December 31, 2028**.

- Customers without active OL Care are encouraged to re-enter by the **December 31, 2023** deadline.

- As of **January 1, 2024,** we will no longer sell PlanetPress 7. However, we will continue to support existing licenses with active OL Care through **December 31, 2028**.

- Yearly renewals will be available until the product discontinuation on **December 31, 2028**.

OL Care

- **Why OL Care?**
  Our world-class program gives you access to unlimited product support, online learning resources and regular software updates & upgrades.

- **How can I re-enter OL Care?**
  Fill in the form **before December 31, 2023** to get in touch. Your Upland Customer Success Manager will contact you to discuss your subscription and personalized offer.

Upgrades

- **Why should I upgrade to OL Connect?**
  OL Connect was developed to provide modern document composition and automation capabilities leveraging the latest technology standards. An overview of OL Connect, its key features, and the different editions available to you can be reviewed in the additional documents included in this pack. Our team of experts is available to discuss the best upgrade option for your business needs.

- **How can I upgrade from PlanetPress Classic to OL Connect?**
  An active OL Care contract is required to purchase an upgrade to OL Connect – customers with no active OL Care must purchase a re-entry at the same time or before the upgrade.
  After December 31, 2023, re-entries will no longer be allowed, customers will then need to purchase a new OL Connect license to upgrade.

- **What happens if I purchase an upgrade and a re-entry?**
  You will get one year of OL Care on both your new Connect and Planet Press Suite licenses giving you enough time to migrate. Renewing both or only the Connect Care contract will be at your discretion.

Transition from PlanetPress Suite to OL® Connect made easy

Enable multi-channel communications and process automation for your business

Many businesses using PlanetPress Suite are looking at ways to produce correspondence to ensure that customers receive information in the format that suits their needs. While PlanetPress Suite offers great functionalities, moving to the OL Connect Technology could help further extend their systems capabilities and add web and digital delivery to all customer communications.
In addition to helping create and send personalized communications, OL Connect allows to capture output from existing systems and then retrieve the information needed to automate processes. It provides the tools and freedom to use data as needed and enable businesses to benefit from enhanced document creation, automation and multichannel distribution leveraging the latest industry standards and web technologies.

Your roadmap to OL® Connect at your own pace

Considering a move to digital technology does not need to be daunting.
OL Connect is introduced in your day-to-day operations without affecting your existing IT infrastructure and templates.

- Install OL Connect on a new server and run both PlanetPress Suite and OL Connect Servers simultaneously.

- Keep on using your existing templates in PlanetPress Suite and migrate them to OL Connect on your own time.

- Create any new templates and processes in OL Connect.

OL® Connect Highlights

Take advantage of a full range of settings and options.

Use data from any source with the DataMapper

- **Excel, CSV, Database, XML, JSON, PDF, PCL* & AFP***

Expand to digital outputs

- **HTML Email**
- **Build variable web pages**

Enhance documents design and assembly

- **Automatic handling of page overflow**
- **Standard (Static) and Dynamic Tables**
- **Output presets**
  - » Wizard Based Print Output
    - Booklet Imposition
    - Inserter Barcodes\OMR
    - Job and Document Separation
    - Job Sortation and Batching
- **Commingling**
  - » Match and merge different types of documents from various systems through an identifier

Benefit from regular software improvements

- **Two major technology updates a year**
- **Regular patches update**

OL® Care coverage for your peace of mind

Benefit from product support for both PlanetPress Suite and OL Connect licenses until the expiration of your Connect Care contract.**
*Features sold separately.

**A renewal quote for your OL Connect and PlanetPress Suite licenses will be sent to you. The renewal for both or only the OL Connect license will be at your discretion.

Compose
Re-engineer your existing documents or create new personalized content **for print, email, web and mobile**

Distribute
Automate output using rules and conditions to control it's final format and destination

Interact
Use your digital output to create new digital inputs and trigger follow-up processes
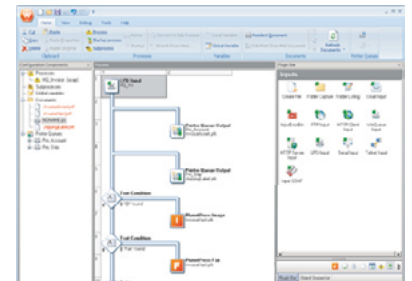

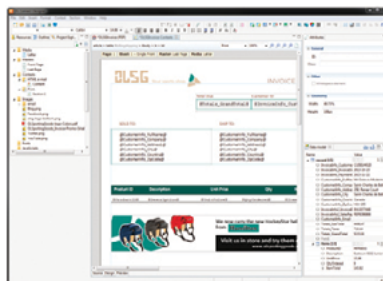

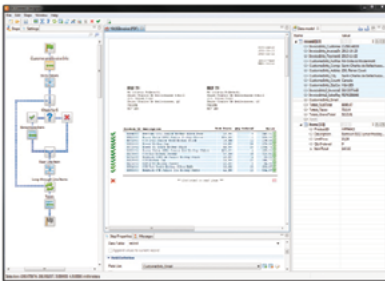

More features

DataMapper

| Extract data from almost any source, including most print streams

| Powerful data mapping tools with GUI and advanced scripting modes

| Normalizes all inputs to a unified format to make designing layouts easier

Multi-channel Designer

| Multichannel contexts in a single designer

| Supports textwrapping, page overflow, tables, white space management, barcodes, and much more

| Design modes include easy to use drag & drop, as well as HTML5, CSS, JavaScript

Same Powerful Workflow tool

| Trigger processes

| Capture input (folders, web, email etc.)

| Create rules and conditions

| Create and distribute output

| Connect to other systems

Ready get things done?
Let us show you what OL Connect can do.

OL® Connect Edition Comparison Table

Performance

Achieved performance depends on numerous factors, including CPUs, RAM, storage speed, software configuration, solution complexity, etc.

1 – From hundreds to thousands
2 – From thousands to hundreds of thousands

	OL® Connect **Professional**	OL® Connect **Enterprise**	OL® Connect **Development**
Target Printers	Desktop MFP	Production Roll-fed	
Email volume	Medium^1	High^2	
PDF volume	Medium^1	High^2	
Max parallel jobs Number of jobs that can be run simultaneously. A job is a group of one or more documents being generated as a single batch	**8**	**64**	8
Max machines Number of machines that can work together on single or multiple jobs. A machine is a PC or VM that runs the OL Connect Server application	1	4	1

Input data types

	OL® Connect **Professional**	OL® Connect **Enterprise**	OL® Connect **Development**
Excel/CSV, Database, JSON, XML	●	●	●
Text, PDF, PostScript Most PDF formats are supported. Metadata from PDF/VT can also be extracted	●	●	●
PCL (includes 3rd party license)	○	○	○
AFP (includes 3rd party license) IPDS data is not supported. Metadata from AFP can also be extracted		○	○

All rows apply to both term and perpetual licenses

Legend	Blank	Not available
	● (orange)	Features that are now included with OL® Connect license as part of the 2023 price list
	● (purple)	Feature has restricted functionality (watermarks, limited recipients, single IP address)
	○	Features that can be purchased as separate options

Objectif Lune

	OL® Connect Professional	OL® Connect Enterprise	OL® Connect Development
DataMapper			
Generate uniform data format (UDF) Same UDF can be generated from various input data types	●	●	●
Data wizards Follow guided instructions to extract data	●	●	●
WYSIWYG configuration tool Drag & drop tasks to generate a processing flow	●	●	●
Unlimited configuration files Create as many data mapping configurations as needed	●	●	●
Designer			
WYSIWYG design Includes the standard Desktop publishing elements	●	●	●
Unlimited templates Create many templates	●	●	●
Data-independent/UDF-driven No knowledge of the original data type is required	●	●	●
For print output Includes PDF and most printer languages	●	●	●
For email output	●	●	●
For web output Preview and adjust display size when designing responsive documents	●	●	●
OL Connect Send			
Includes 3 users			●
