

# OL<sup>®</sup> Care Designed for your peace of mind

## OL Connect Re-entry Information Pack

### Key OL Connect information

OL Connect 2023.1 released in May 2023 introduced a consolidated portfolio under the OL Connect brand:

- PlanetPress Connect becomes **OL Connect Professional** and automatically includes the Imaging and the Optimized Output modules. The speed and parallel processing limits have also been increased.
- PReS Connect becomes **OL Connect Enterprise** and includes the Imaging and the Optimized Output modules. It also allows you to install the license on up to 4 servers without having to purchase any performance packs. (which are now discontinued).

The new product names will only appear in version 2023.2 later this year, but the license improvements will be made available immediately when upgrading to version 2023.1.

Features for both editions can be reviewed in the comparison datasheet included in this pack.

### OL Care

- **Why OL Care?**

Our world-class program gives you access to unlimited product support, online learning resources and regular software updates & upgrades.

- **How can I re-enter OL Care?**

Fill in the form to get in touch. Your Upland Customer Success Manager will contact you to discuss your subscription and personalized offer.

### Upgrades

- **How can I transition from existing PlanetPress or PReS Connect to the new OL Connect Professional or Enterprise?**

An active OL Care is required to upgrade to the new OL Connect versions. When upgrading to Connect version 2023.1, any current Connect software with an active OL Care contract will be automatically upgraded to the new version that includes all the features.

# OL<sup>®</sup> Connect Edition Comparison Table

## Performance

Achieved performance depends on numerous factors, including CPUs, RAM, storage speed, software configuration, solution complexity, etc.

1 – From hundreds to thousands

2 – From thousands to hundreds of thousands

### Target Printers

### Email volume

### PDF volume

### Max parallel jobs

Number of jobs that can be run simultaneously. A job is a group of one or more documents being generated as a single batch

### Max machines

Number of machines that can work together on single or multiple jobs. A machine is a PC or VM that runs the OL Connect Server application

## Input data types

### Excel/CSV, Database, JSON, XML

### Text, PDF, PostScript

Most PDF formats are supported. Metadata from PDF/VT can also be extracted

### PCL (includes 3rd party license)

### AFP (includes 3rd party license)

IPDS data is not supported. Metadata from AFP can also be extracted

	OL <sup>®</sup> Connect Professional	OL <sup>®</sup> Connect Enterprise	OL <sup>®</sup> Connect Development
<b>Target Printers</b>	Desktop MFP	Production Roll-fed	
<b>Email volume</b>	Medium <sup>1</sup>	High <sup>2</sup>	
<b>PDF volume</b>	Medium <sup>1</sup>	High <sup>2</sup>	
<b>Max parallel jobs</b>	8	64	8
<b>Max machines</b>	1	4	1
<b>Excel/CSV, Database, JSON, XML</b>	●	●	●
<b>Text, PDF, PostScript</b>	●	●	●
<b>PCL (includes 3rd party license)</b>	○	○	○
<b>AFP (includes 3rd party license)</b>		○	○

All rows apply to both term and perpetual licenses

## Legend

- Blank** Not available
- Features that are now included with OL<sup>®</sup> Connect license as part of the 2023 price list
- Feature has restricted functionality (watermarks, limited recipients, single IP address)
- Features that can be purchased as separate options

## DataMapper

### Generate uniform data format (UDF)

Same UDF can be generated from various input data types

### Data wizards

Follow guided instructions to extract data

### WYSIWYG configuration tool

Drag & drop tasks to generate a processing flow

### Unlimited configuration files

Create as many data mapping configurations as needed

## Designer

### WYSIWYG design

Includes the standard Desktop publishing elements

### Unlimited templates

Create many templates

### Data-independent/UDF-driven

No knowledge of the original data type is required

### For print output

Includes PDF and most printer languages

### For email output

### For web output

Preview and adjust display size when designing responsive documents

## OL Connect Send

Includes 3 users

### OL<sup>®</sup> Connect Professional

### OL<sup>®</sup> Connect Enterprise

### OL<sup>®</sup> Connect Development

## Workflow

### Lights out operation

Runs as a series of services and helpers

### Capture data from anywhere

Among others: hot folders, Windows & LPD print queues, email, HTTP, DB queries, OneDrive, FTP/S

### Conditional routing

Create branches based on data values or dynamic conditions

### Parallel processing

Multiple processes run simultaneously on single and multiple jobs

### Multiple business processes

Implement business rules for each type of process that requires automation

### Automate OL® Connect operations

Automate the extraction of data and the generation of documents using flexible and complete scheduling

### Multiple output destinations

Output simultaneously to printers, folders, FTP, email, OneDrive or a number of Document Management Systems

### Third-party connectors

Docuware, Therefore, SharePoint, M-Files

### PlanetPress Suite compatible

Generate PlanetPress Classic documents

### Classic PSM connector

Send jobs to PrintShop Mail Classic

### Classic PReS connector

Send jobs to PReS Classic

### Imaging module

Includes Image, Fax and Search functionality

## Output formats

### PDF, PDF/A, PDF/VT

Includes PDF/X, Factur-X, ZUGFeRD

### PostScript

PS level 2 or 3, with full PPD control

### PCL

### AFP/IPDS

## Output management

### Windows printing

Send to local or shared Windows printers

### Document splitting

Split the output job in batches or as individual documents

### Impositioning

Order and arrange multiple pages on sheets

### Finishing

Control every printer feature

### Optimized output (VIPP, VPS, PPML)

Specialized print formats for optimizing certain devices

### Reusable job presets

Save filtering, grouping, and sorting options to reusable presets

### Reusable output presets

Save output options to reusable presets

### File creation

Generate files on disk

### LPR printing

Send directly to LPD queues

### Print Manager

Manage and prioritize print jobs manually
